NATIONALLY RECOGNISED
TRAINING

ICT30120 Certificate III in Information Technology

Qualification description

The Certificate III in Information Technology is for students who want to go deeper into tech - moving beyond basic digital skills into the real hands-on work that IT professionals do every day. You'll get practical experience with computer hardware, networking, system administration, and cybersecurity, using the same kinds of tools and scenarios you'd find in an actual IT workplace.

IT is one of the most in-demand fields in Australia right now, and this course sets you up for a genuine career in it - whether that's jumping straight into a support or technical role after school, or continuing into further IT study or a university degree.

Refer to training.gov.au for specific information about the qualification.

Entry requirements

There are no entry requirements for this qualification. At enrolment students will need to provide their Unique Student Identifier (usi.gov.au) and complete an LLN test to determine suitability and any support needs.

Duration and location

This is a 2 year course delivered in years 11 and 12 on site with qualified school staff via a third party arrangement with IVET Institute.

Delivery modes

A range of delivery modes will be used during the teaching and learning of this qualification. These include:

- face-to-face instruction
- practicals and scenarios
- online training
